

Riesling Reserve Dry

2018

The Riesling Reserve Dry is sourced late in harvest from select blocks in our estate vineyards. Extended hangtimes in the long, cool autumns around Seneca Lake allow flavors to develop with structure and complexity. The result is a Riesling with a weighty mouthfeel and a rich, balanced texture.

Riesling Magdalena Vineyard

2018

Proximity to the lake extends growing seasons in our Magdalena Vineyard. The additional ripeness this unlocks can show through with striking intensity. Layers of ripe orchard fruit and tropical fruit coat the palate supported by broad, lingering acidities.

Riesling HJWBio

2017

We adhere to unique farming methods that focus on the totality of our farm, promoting biodiversity in adjacent fields, forests, and meadows, while utilizing cover crops, beneficials, and homeopathic teas and preparations. Our goal is to continue the expansion of these practices and create wines that reflect the intrinsic compatibility of vineyards and their surroundings.
